PROFILE

Motivated Computer Science student (4th year, 7th semester) with hands-on experience through a UI/UX design internship, Front-end development boot camps, and academic projects. Skilled in problem-solving, programming, and design tools, with a strong interest in learning new technologies. Seeking opportunities to apply technical knowledge and grow through professional internships.

WORK EXPERIENCE

Academic & Semester Projects
Developed semester-wise projects, including applications and systems using programming languages and frameworks.
Worked collaboratively in teams, applying theoretical knowledge to practical solutions.
Applied agile methodology for project planning and implementation.

Internships & Bootcamps
Completed multiple internships in computer science-related fields, gaining exposure to real-world software development practices.
Participated in boot camps focused on programming, web technologies, and problem-solving.

ACHIEVEMENTS

UI/UX Designer Internship – Intern Intelligence
Front-end Development Bootcamp - Google
Leetcode Challenge – Microsoft Learn Student Ambassador
Web Dev Basics 101 - Microsoft Learn Student Ambassador
AI Powered Chatbot - Microsoft Learn Student Ambassador

EDUCATION

2023-2026

Bachelor of Science in Computer Science

Jinnah University for Women, Karachi

Currently in 4th Year (7th Semester)
